

# DIVYA JYOTI AYURVEDIC MEDICAL COLLEGE & HOSPITAL

**AFFILIATED WITH MAHAYOGI GORAKHNATH AYUSH UNIVERSITY  
RECOGNIZED BY NCISM & MINISTRY OF AYUSH**

MODINAGAR, GHAZIABAD (NCR), UTTAR PRADESH

## CERTIFICATION

### **Certification**

Subsequent to the successful fulfillment of academic and clinical prerequisites, matriculants of the Divya Jyoti Ayurvedic Medical College are formally conferred the Bachelor of Ayurvedic Medicine and Surgery (BAMS) degree.

This aforementioned certification, a testament to the comprehensive and rigorous nature of the program, is duly recognized by the Central Council of Indian Medicine (CCIM), the National Commission for Indian System of Medicine (NCISM), and the Ministry of AYUSH, Government of India.

This multi-level recognition serves to validate the degree and grants its holder the requisite authorization for professional practice throughout the nation.

### **Professional Qualification**

The BAMS degree, which bestows the honorific title of 'Ayurvedacharya' upon its recipients, constitutes the mandatory professional credential for practicing as an Ayurvedic physician. It serves as an official attestation that the graduate has met or exceeded the stringent standards set forth by the relevant governing bodies concerning pedagogy, clinical instruction, and professional conduct.

### **Institutional Affiliation and Accreditation**

The academic programs of the college are officially affiliated with Mahayogi Guru Gorakhnath AYUSH University, which is the entity responsible for the formal bestowal of the BAMS degree. This institutional partnership, coupled with the accreditation from the NCISM and the Ministry of AYUSH, ensures that the professional certification is endowed with credibility and adheres to all national benchmarks of quality and proficiency.

### **Compulsory Clinical Residency**

An indispensable and integral component of the certification process is the one-year rotating internship. This period of intensive, practical clinical residency is obligatory for all students. During this time, practical experience is gained within a hospital environment, which is fundamental to the development of the confidence and expertise necessary for autonomous clinical practice.

The satisfactory conclusion of this internship is an absolute prerequisite for the issuance of the final BAMS degree and the subsequent legal practice as a certified professional in the field of Ayurveda.
